

Inauguration of MNIT Jaipur Admissions Counselling (MAC) Hub

Malaviya National Institute of Technology Jaipur has a long and proud history of conducting centralised counselling for undergraduate and postgraduate admissions to Centrally Funded Technical Institutions (CFTI) falling under the purview of Ministry of Education (MoE), Government of India. Malaviya National Institute of Technology Jaipur thanks MoE, for reposing faith in the institute by regularly assigning the centralised counselling to the institute.

Adding a feather on the cap to that legacy today, and considering the need to strengthen the counselling mechanism, Prof. N. P. Padhy, Director, MNIT Jaipur, on 11 April 2022, inaugurated the MNIT Jaipur Admissions Counselling (MAC) Hub at the Prabha Bhawan. This will be a single point service for all counselling assignments from MoE, to be conducted for CFTIs. MAC has a mission to serve the institute and the MoE, in providing a reliable and transparent counselling experience for lakhs of hardworking students and aspiring parents. This will lead to preservation and development of best practices in counselling services.
