Introduction

Millets have been an integral part of our diet for centuries. Due to their high nutritional value, they are referred to as “nutri-cereals”. In addition to a plethora of health benefits, they are also good for the environment with low water & input requirement. With the aim to create awareness and increase production & consumption of millets, United Nations, at the behest of the Government of India, declared 2023 as the International Year of Millets.

The following activity was planned and conducted for celebrating “International Year of Millets 2023” on 28th September, 2022 by the Institute.

S. No.	Activity	Date and Time
1	Mural Painting Competition under the International Year of Millets 2023	28 th September, 2022

Mural Painting Competition:

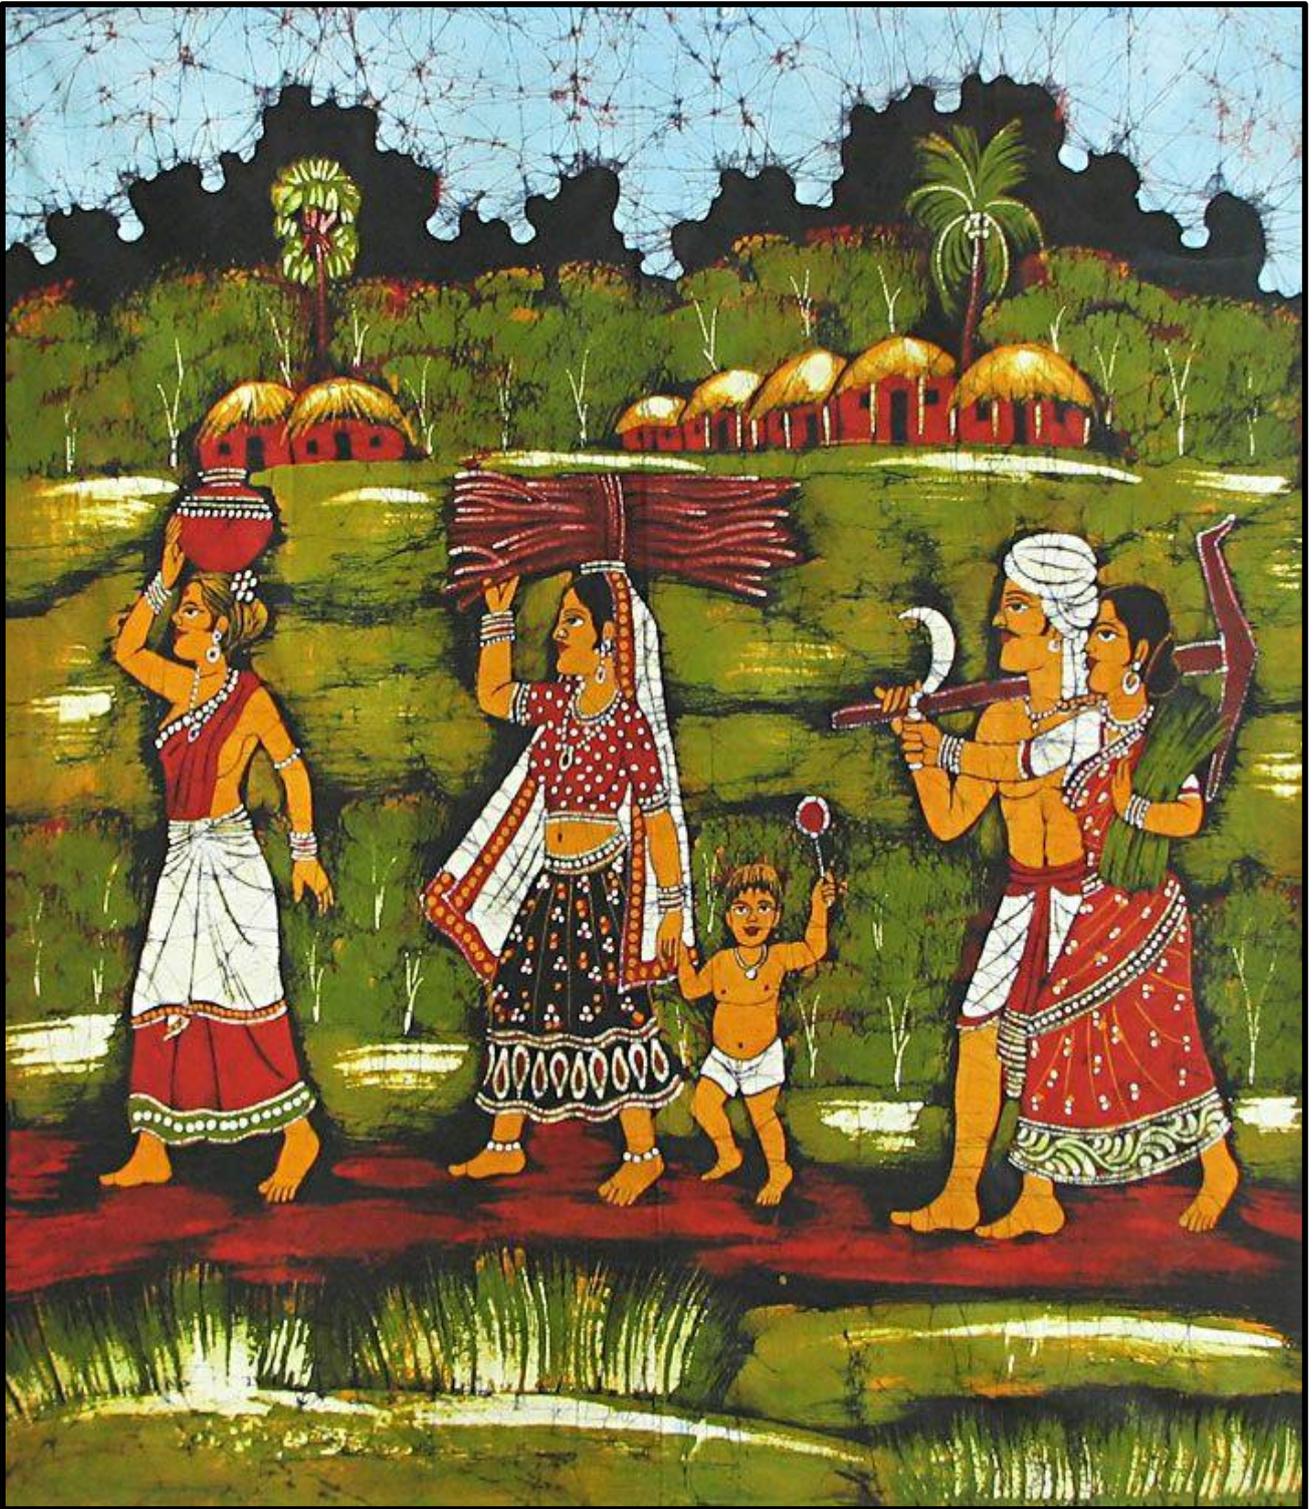

A graphic design cum painting contest was organized to get the entries of students on the theme of millets for the purpose of wall painting.

Entries were accepted online through google form. All students had to submit their posters within the timeline.

We received 10 entries from students.
